

Message to Earlwood Branch
of Young Liberals for
incorporation in their
magazine.

Nobody could be a greater believer than I am in the Young Liberal Movement. I sincerely look forward to the day when I shall have left the political scene and you who now are our younger members will have succeeded to the positions of power and responsibility in our country.

Liberalism offers us much to believe in, not just something to oppose. We in our Party have a faith to live by and I am sure that it is a faith which appeals to the Australian spirit of independence and to youth, and not to the spirit of dependency on what governments ought to do that characterises so many of our opponents.

I wish success to you in the Earlwood Branch and commend you upon your paper and the effort that you are clearly putting in to the Party in your area. With Branches such as yours operating with the vigour that you display, the future of the Liberal Party is assured.

R. G. MENZIES.

CANBERRA,

29th August, 1962.
