

MESSAGES TO BE CONVEYED BY MR. STILGMEIER
TO THE QUEENSLAND STATE EXECUTIVE OF THE
LIBERAL PARTY

I send you most cordial greetings as you enter upon your important discussions.

You meet at a time when the fortunes of our party, both in the State and in the Commonwealth, are in a healthy condition. Furthermore, I venture to say that we are experiencing a gradual but steady increase in the support of the electorate. Nevertheless, we cannot rest; we must constantly look for new ideas, awaken new enthusiasms not only among those who have long helped us but among the young people whose support means everything to our future. Ours is a dynamic party and must remain so.

I am sure that your deliberations will do much to provide us with fresh approaches to national problems, and win for us the continuing support of the great majority of the people.

R. G. STILGMEIER

CANBERRA,

3rd October, 1953.
