P. M. No. 47/1969

APPOINTMENT TO NATIONAL RADIATION
ADVISORY COMMITTEE

Statement by the Prime Minister, Mr. John Gorton

Dr. J. M. Rendel has accepted an invitation to become a member of the National Radiation Advisory Committee.

Dr. Rendel is Chief of the Division of Animal Genetics of the C. S. I. R. O. and Chairman of the Animal Research Laboratories. He will fill the vacancy created by the resignation of Mr. D. A. Gill.

Dr. Rendel, with his background in animal health and production, is well qualified to assist the National Radiation Advisory Committee, which was established in 1957 to advise the Government on the effects of ionising radiation on the Australian community.
