AUSTRALIAN ASSISTANCE PLAN

The Prime Minister and member for Werriwa, Mr Whitlam announced today that the Liverpool Area Steering Committee for the Australian Assistance Plan had been given a special grant of \$2,000.

Mr Whitlam said that the grant would help local organisations involved in community activities to set up a regional council for social development in the Liverpool region.

The object of the Australian Assistance plan is to encourage people to get involved in making decisions about those community amenities and social services they believe are needed in their own region.
