

PRIME MINISTER

FOR PRESS

14 NOVEMBER 1977

PRESENTATION OF TRACTOR TO VICE-CHAIRMAN ULANFU OF PRC

The Prime Minister today announced the gift of a Massey Ferguson four-wheel drive articulated tractor, together with plough and scarifier attachments, to Vice-Chairman Ulanfu.

The gift is intended as a memento of the Vice-Chairman's recent visit to Australia, during which he took a particular interest in seeing Australian agricultural and pastoral industries at first hand.

In making the gift, the Prime Minister expressed the hope that the tractor's service to China's agriculture would symbolise the beginning of a fruitful development of agricultural co-operation between China and Australia.
