

PRIME MINISTER

FOR PRESS

23 MAY 1978

WHALING INQUIRY SUBMISSION

Work is well in hand on the preparation of the Government's submission to the Independent Whaling Inquiry to be conducted by Sir Sydney Frost.

Departments are conferring to consolidate their views in a single submission. It will bring together in one paper all views on the various aspects with which the Government is involved in relation to the Terms of Reference of the Inquiry.

This will ensure that Sir Sydney Frost obtains a complete submission from the Government.
