"AUSTRALIA FAIR"

Australia's Silver Jubilee gift to the Queen, the racing filly, Australia Fair, has arrived in the United Kingdom, fit and well.

Australia Fair left Sydney last Friday by Qantas transport aircraft, and was transhipped in San Francisco to a Seaboard Airlines transport for the remainder of the flight. She arrived this morning.

I am informed that Australia Fair is in splendid condition and that the Queen is delighted that the filly handled the long air journey so well.

Australia Fair was bred at South Australia's Lindsay Park Stud and is by "Without Fear" from "Chulgin Princess".
