

PRIME MINISTER

20/92

STATEMENT BY THE PRIME MINISTER, THE HON. P.J. KEATING MP

HEWSON "RESPONSE"

Dr Hewson stands alone as the only person in Australia who thinks the Government should do nothing about the recession.

Tonight he said the Government should not spend one cent to get the economy moving.

His response to the One Nation plan for the future was nothing more than a litany of reasons why Australia could not succeed.

Labor believes Australia can succeed.
